

TruckMaster - 200 - 900 Litres

PORTABLE DIESEL STORAGE AND DISPENSING

The Kingspan TruckMaster range has been specifically designed for the safe transportation of diesel fuel. This robust, portable solution offers users the ultimate convenience by allowing them to refuel remotely on-site.

Available from 200-900 litres. The TruckMaster is built from high quality polyethylene providing resistance to structural damage, changing weather conditions and UV radiation. It also offers a number of equipment options to suit all types of user.

Quality Design and Reliability

Offering a robust and resilient product design combined with a 5 year guarantee*, quality customer service and over 40 years' experience delivering high performing products worldwide - you know you can trust Kingspan.

Excellent Return On Investment

Lightweight, portable storage solution offering a faster and safer delivery of diesel to any point of use with model options which occupy only half a euro pallet** - saving you valuable time and money.

Portability

The TruckMaster is designed to go anywhere and to withstand toughest of site conditions offering liquid delivery a new mobility. The TruckMaster 430 and 900 litres features an internal baffle wall minimising the movement of liquid hence making the truck and the load more stable when in transit.

The 430 & 900 litre TruckMaster has been tested to meet the requirements of the European agreement (ADR) for the International Carriage of Dangerous Goods by Road***.

Authorised Distributors of

* With 1 year on equipment.

** The new TruckMaster 200 and 300 litres occupy only half a euro pallet.

*** TruckMaster 200 and 300 litres do not require ADR approval due to their smaller capacity.
