

Everlink Micro Lite HV (Mains)

Single pump - Surface mount with mains PSU, with antenna

Everlink Micro Lite HV is a single pump mains powered fluid management system. The Kialink wireless module is used to transfer information between the Everlink Lite and custom PC application software.

Features include:

- Full stainless steel construction.
- Back lit stainless steel keypad.
- 128 x 64 monochrome graphics LCD screen.
- Built in RFID reader.
- Single pump support as standard. Not expandable.
- Uses our Kialink hand held data transfer module.
- Kialink module can manage up to 50 LITE systems.
- PC software application runs from Kialink module, no software to load, no hassles.
- Seamless integration with most existing and new pumping equipment.
- Multiple ID types can be used on a single system including 4 & 6 digit pins, RFID, fuel cards and manual entry of asset numbers.
- Up to 500 Users per Everlink LITE system.
- Up to 5 security profiles per Everlink LITE system.
- 80K and full life transaction memory buffers, never lose a transaction.
- Battery backed, never lose part transactions on power failure.
- Upgradeable to cloud enabled system with our click in 3G or CATM communications modules. No hardware redundancy when upgrading!
- Optional lockable front cover (surface mount units only) and 100-240VAC supply.
- Surface mount and flush mount versions.
